We've come a long way

We've come a ond Way...

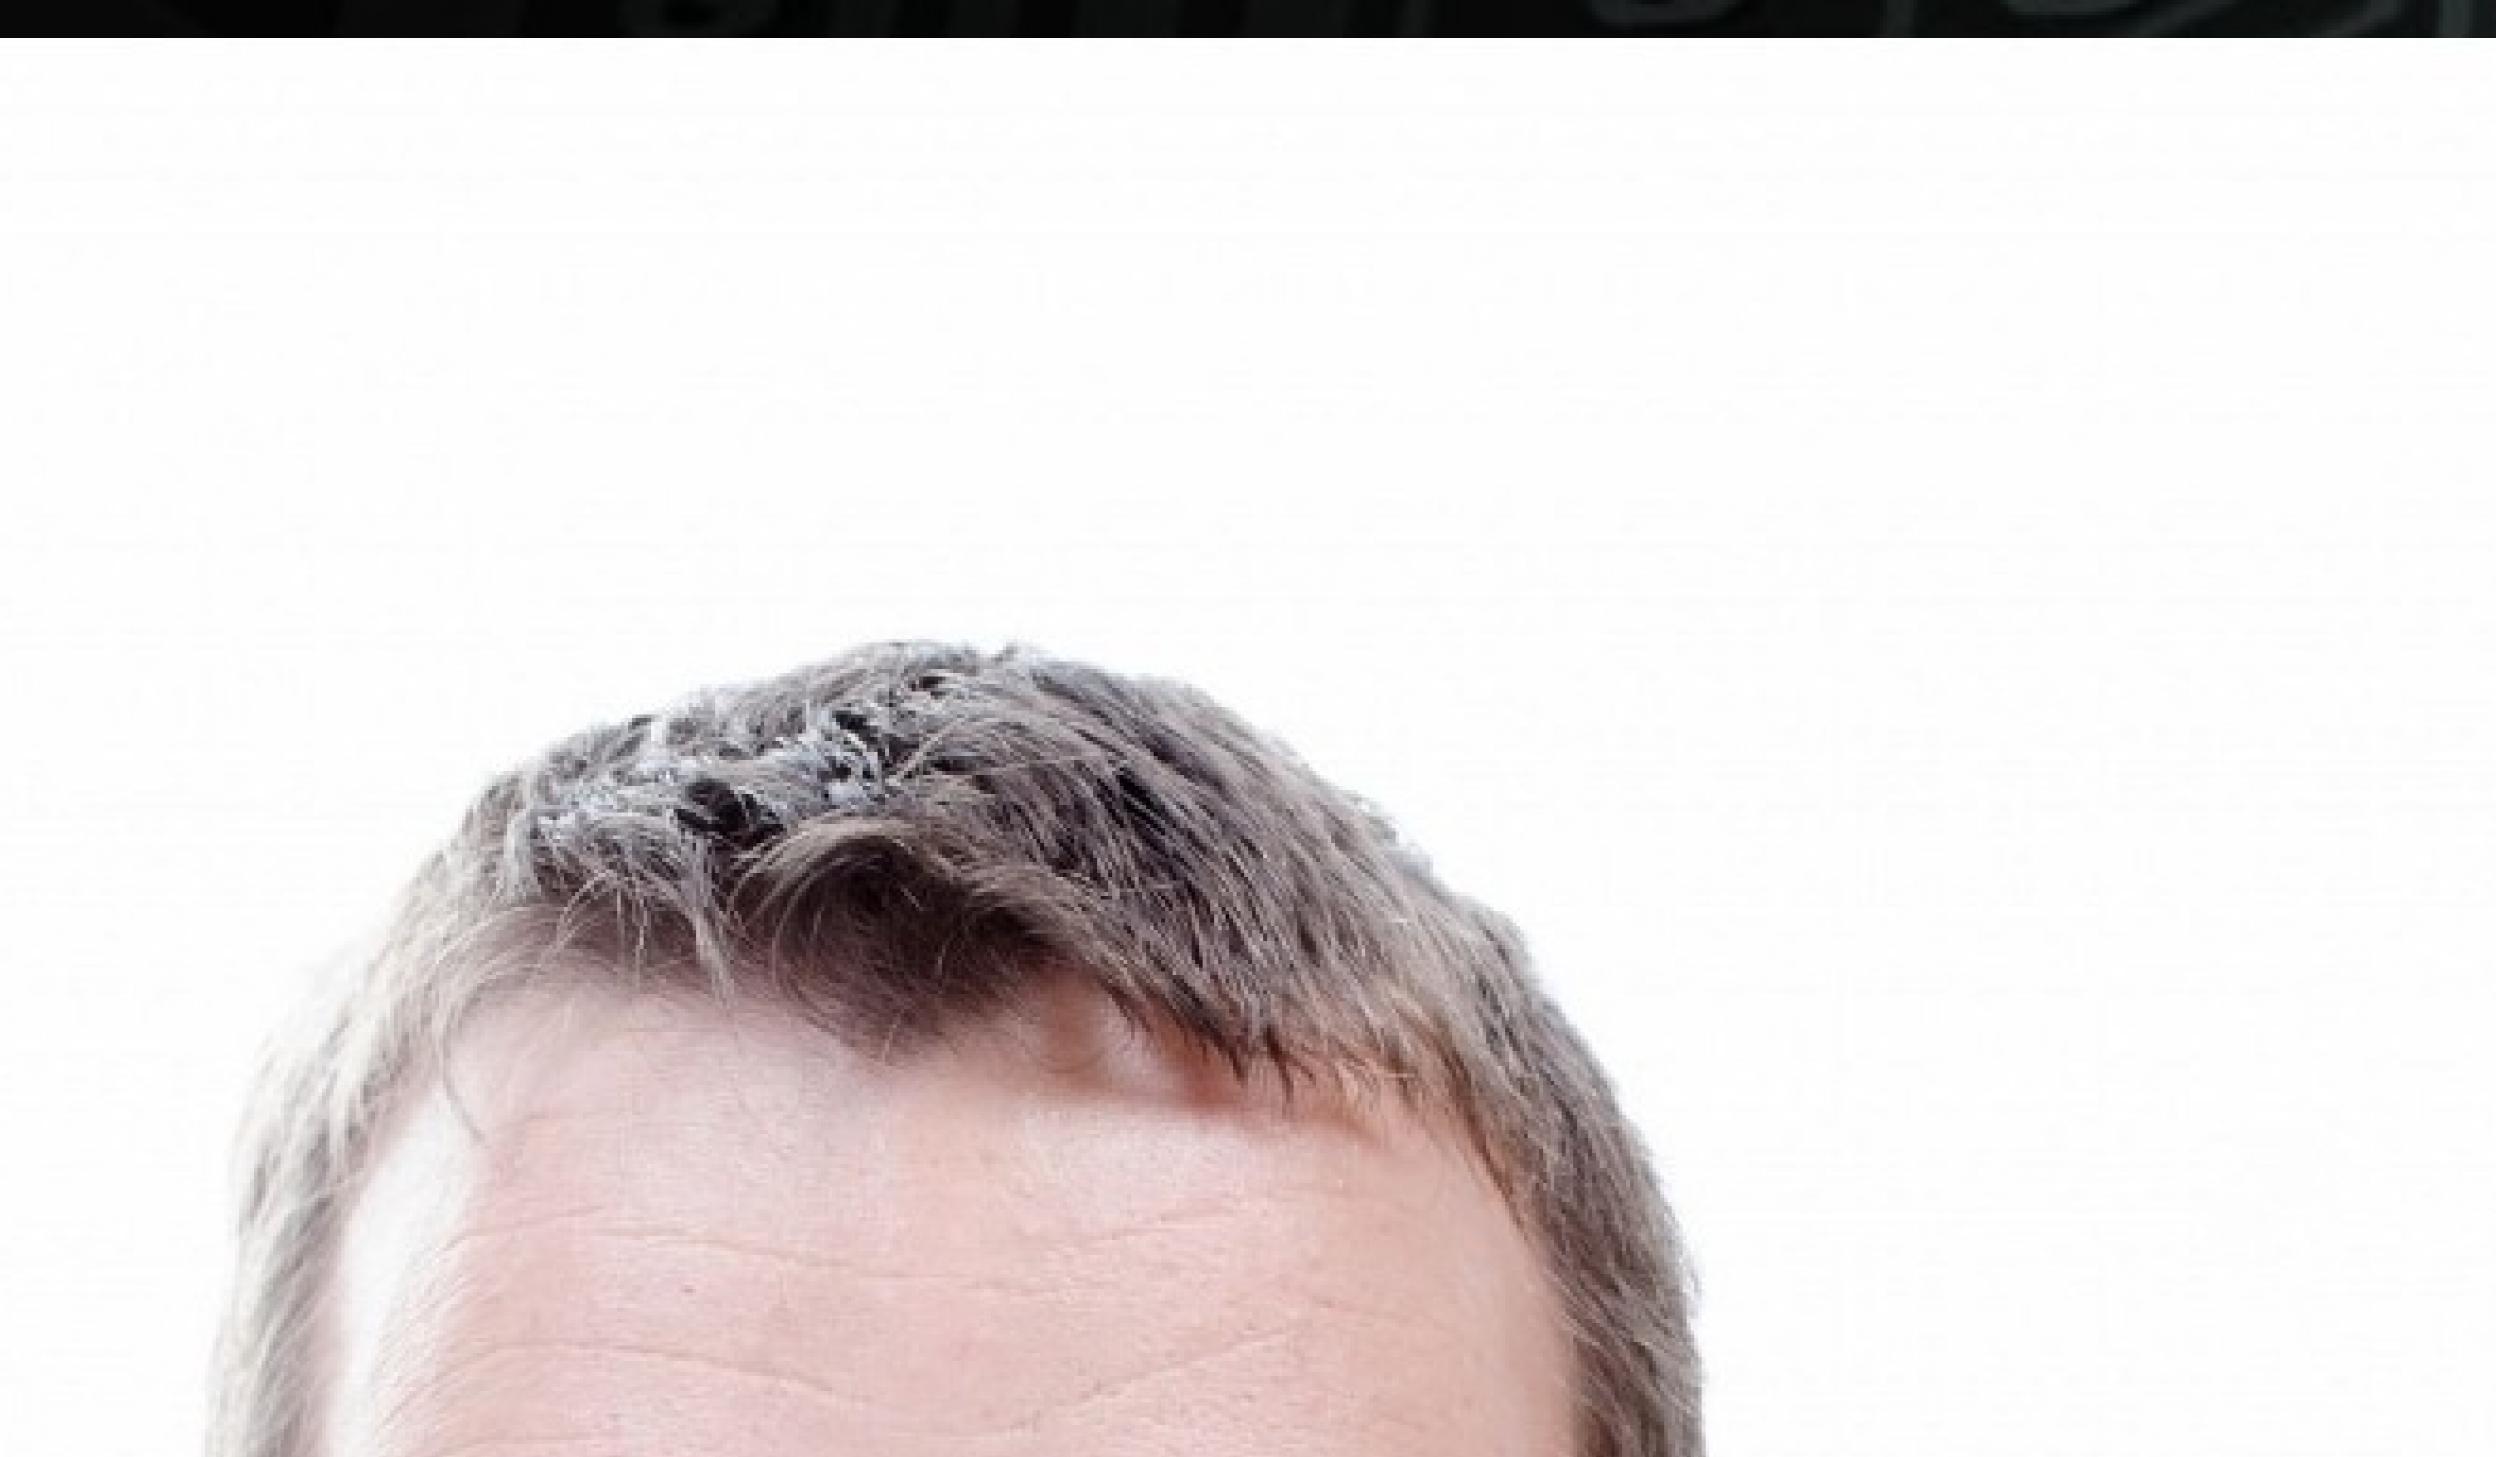

Speaking of good teaching...

"Good teaching remains good teaching with or without the technology."

(Higgins et al., 2007, p. 215)

"I definitely agree more research is needed but we can't fight the inevitable fact that students are coming into the classroom way more connected and with access to content and knowledge they didn't use to and if teachers hide behind this quote, they might be distancing themselves from students rather than connecting."

It is scary!

Patience

Make mistakes

Try again

Which of these tools have you used with your students?

Learning aim

- 1. Tutorials
- 2. Peer evaluation
- 3. Communication/ Collaboration
- 4. Showcasing examples
- 5. Reflection
- 6. Project portfolio
- Revision
- 8. Audience response
- 9. Monitoring student progress
- 10. Speaking homework

- 1. Doodle, Slack, Office365
- 2. Whatsapp, Peerwise, Instagram
- 3. Slack, Padlet, Trello
- 4. VR, AR, YouTube
 - 5. Mahara, Padlet, Instagram
 - 6. Google drive, Trello, Slack
 - 7. Socrative, Quizlet, Edupuzzle
 - 8. Kahoot, Poll everywhere, Padlet
 - 9. VLE, Mahara, Edmodo
 - 10. Whatsapp, Padlet, Instagram

Debate model

D-iffculty

E-environment

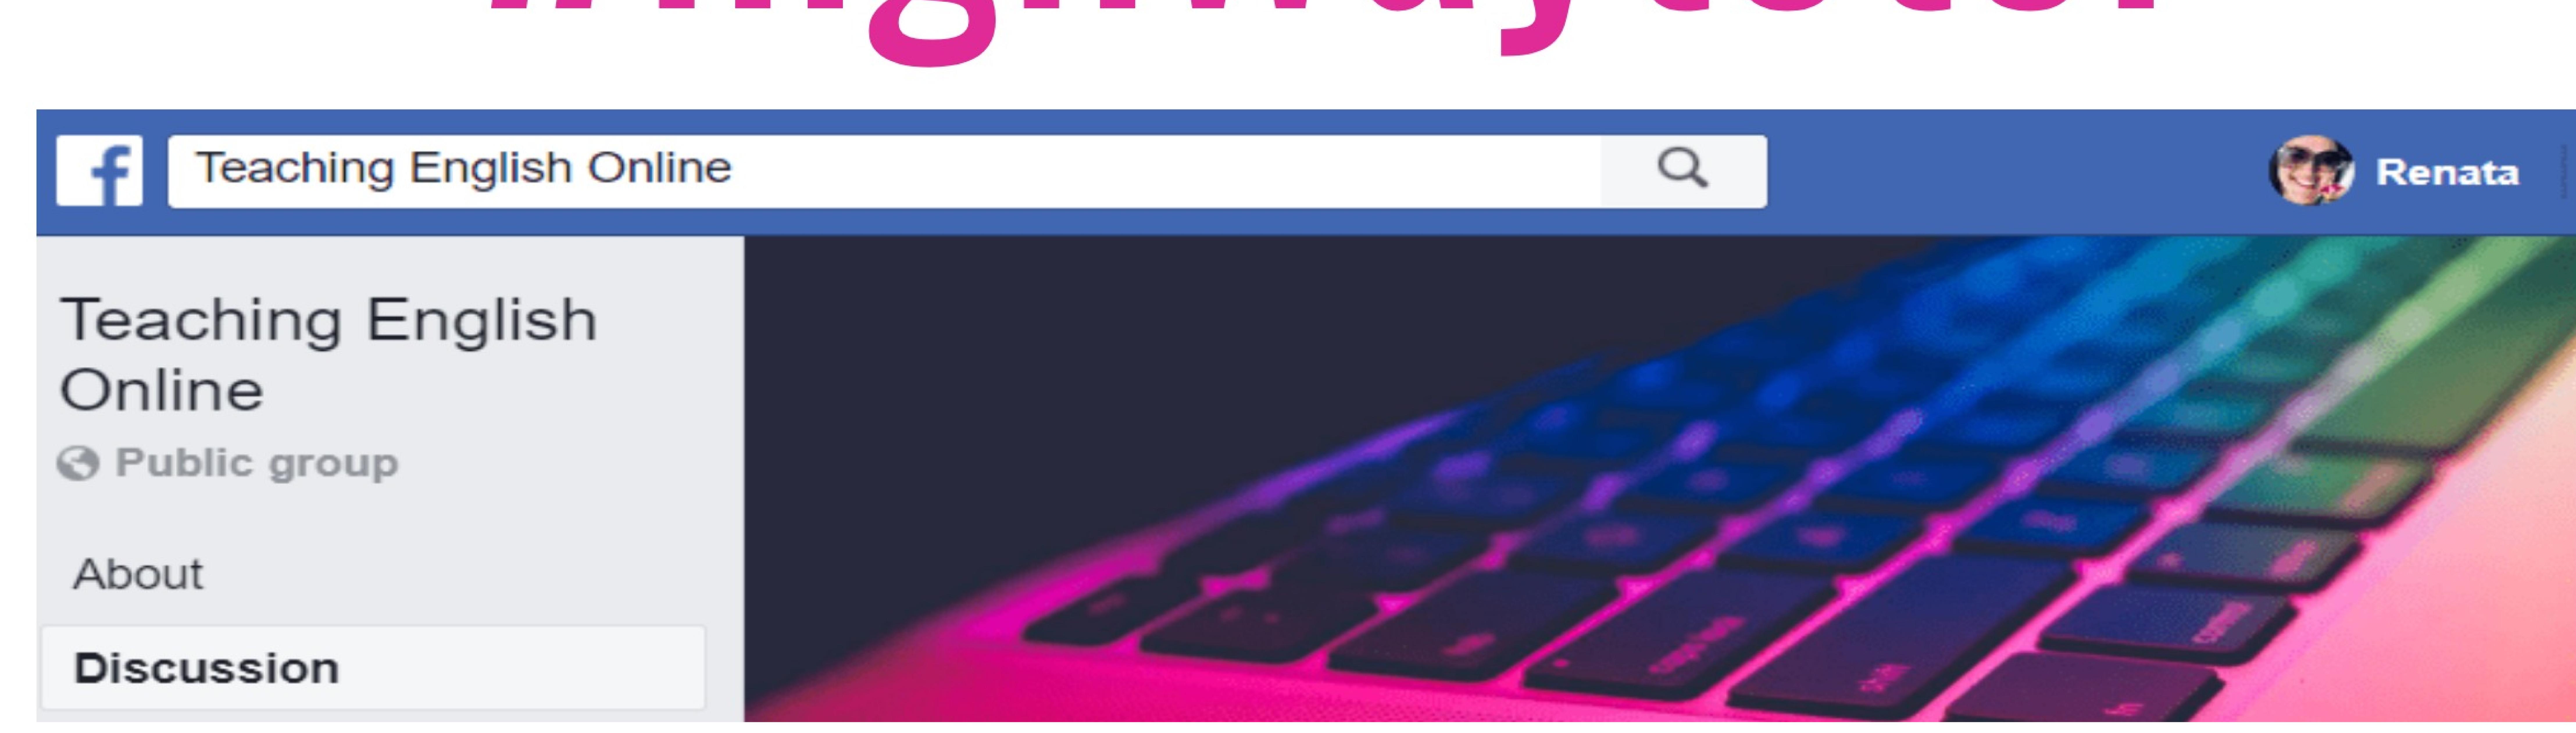

E-ngagement

For the decision makers...

Invest in your staff
Innovation requires failure
10X it!

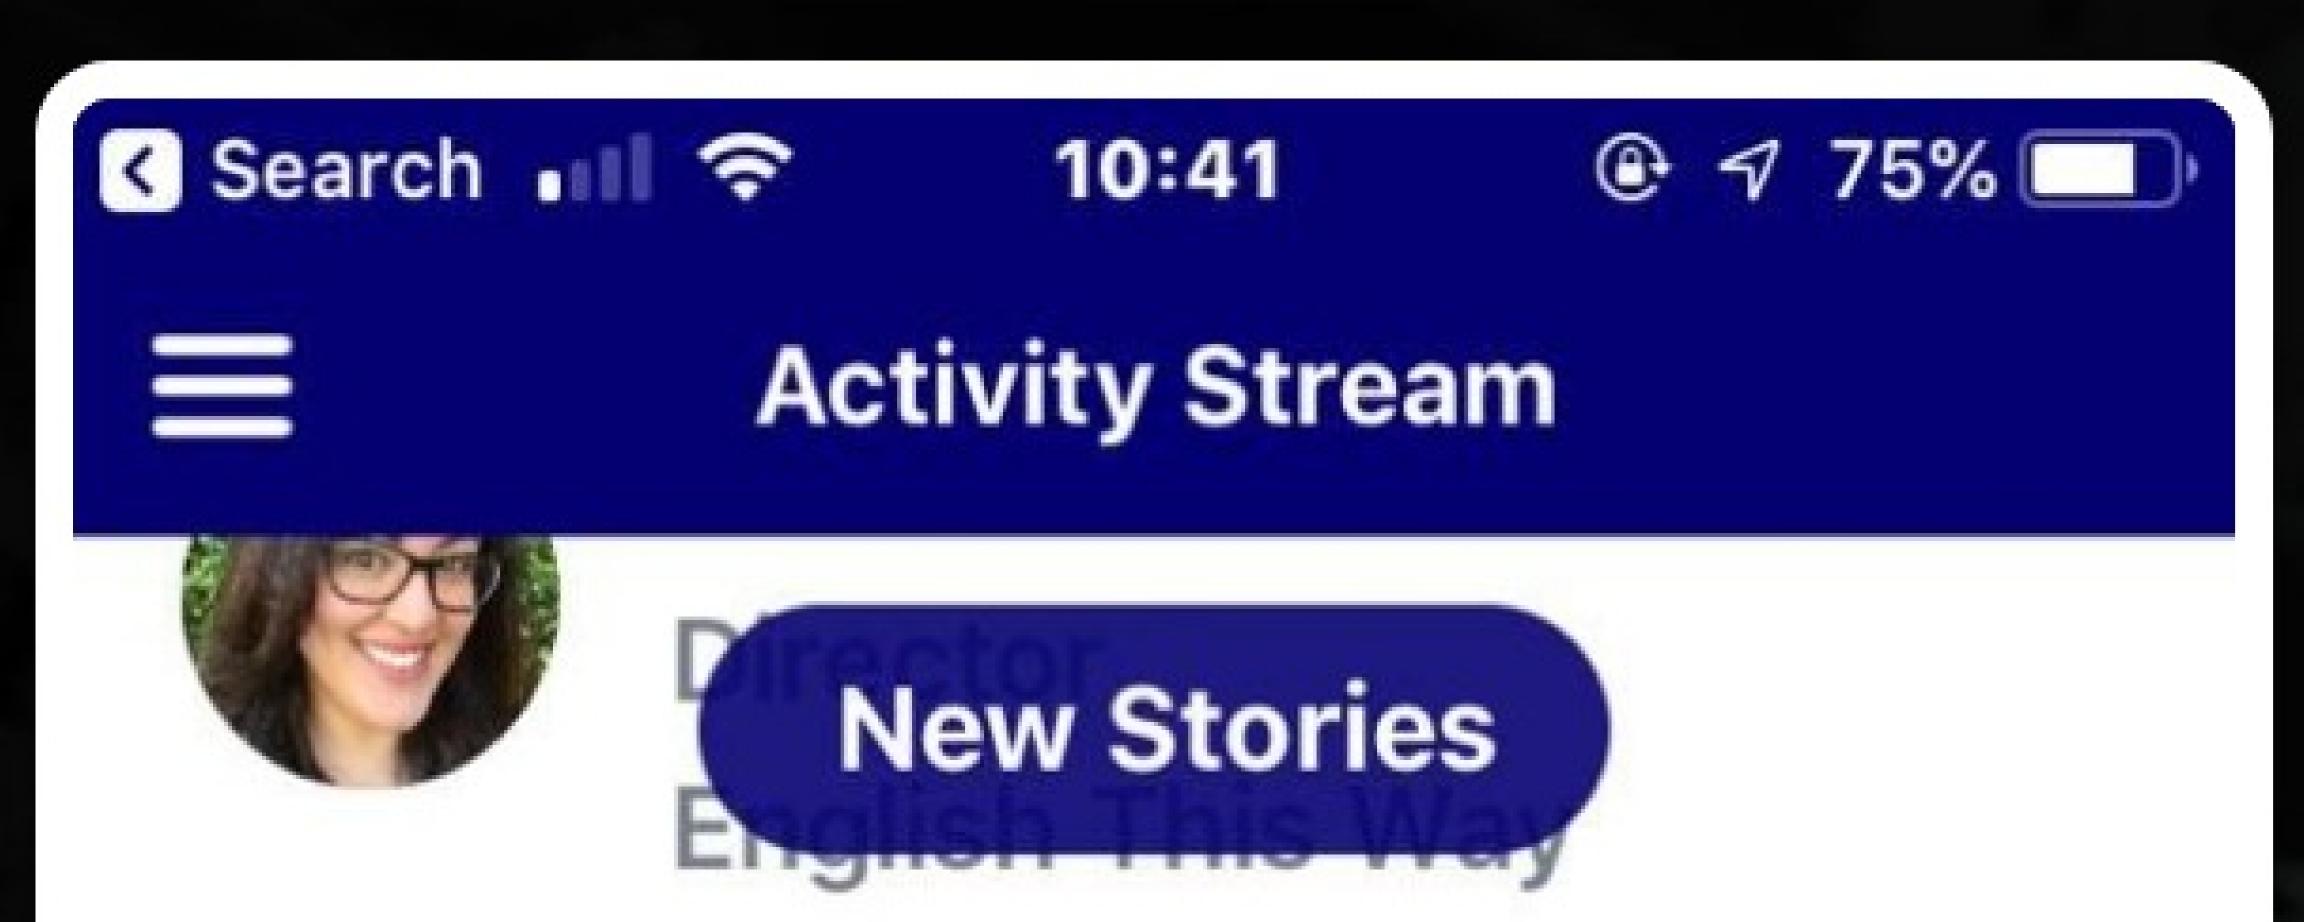

"Science fiction is becoming science fact!"

Gerd Leonhard

What are the opportunities?

Opportunities for teachers...

"Security is uncomfortable,
Comfort is not secure..." if you
don't know the threat, you won't
recognise it! Rafael Salema
Marques (SWaNk) . I'll
extrapolate and mention that we
can't learn anything unless we
get out of our comfort zones
and feel a bit unsafe... Being
comfortable is unsafe in ANY
area nowadays!

What's on your mind?

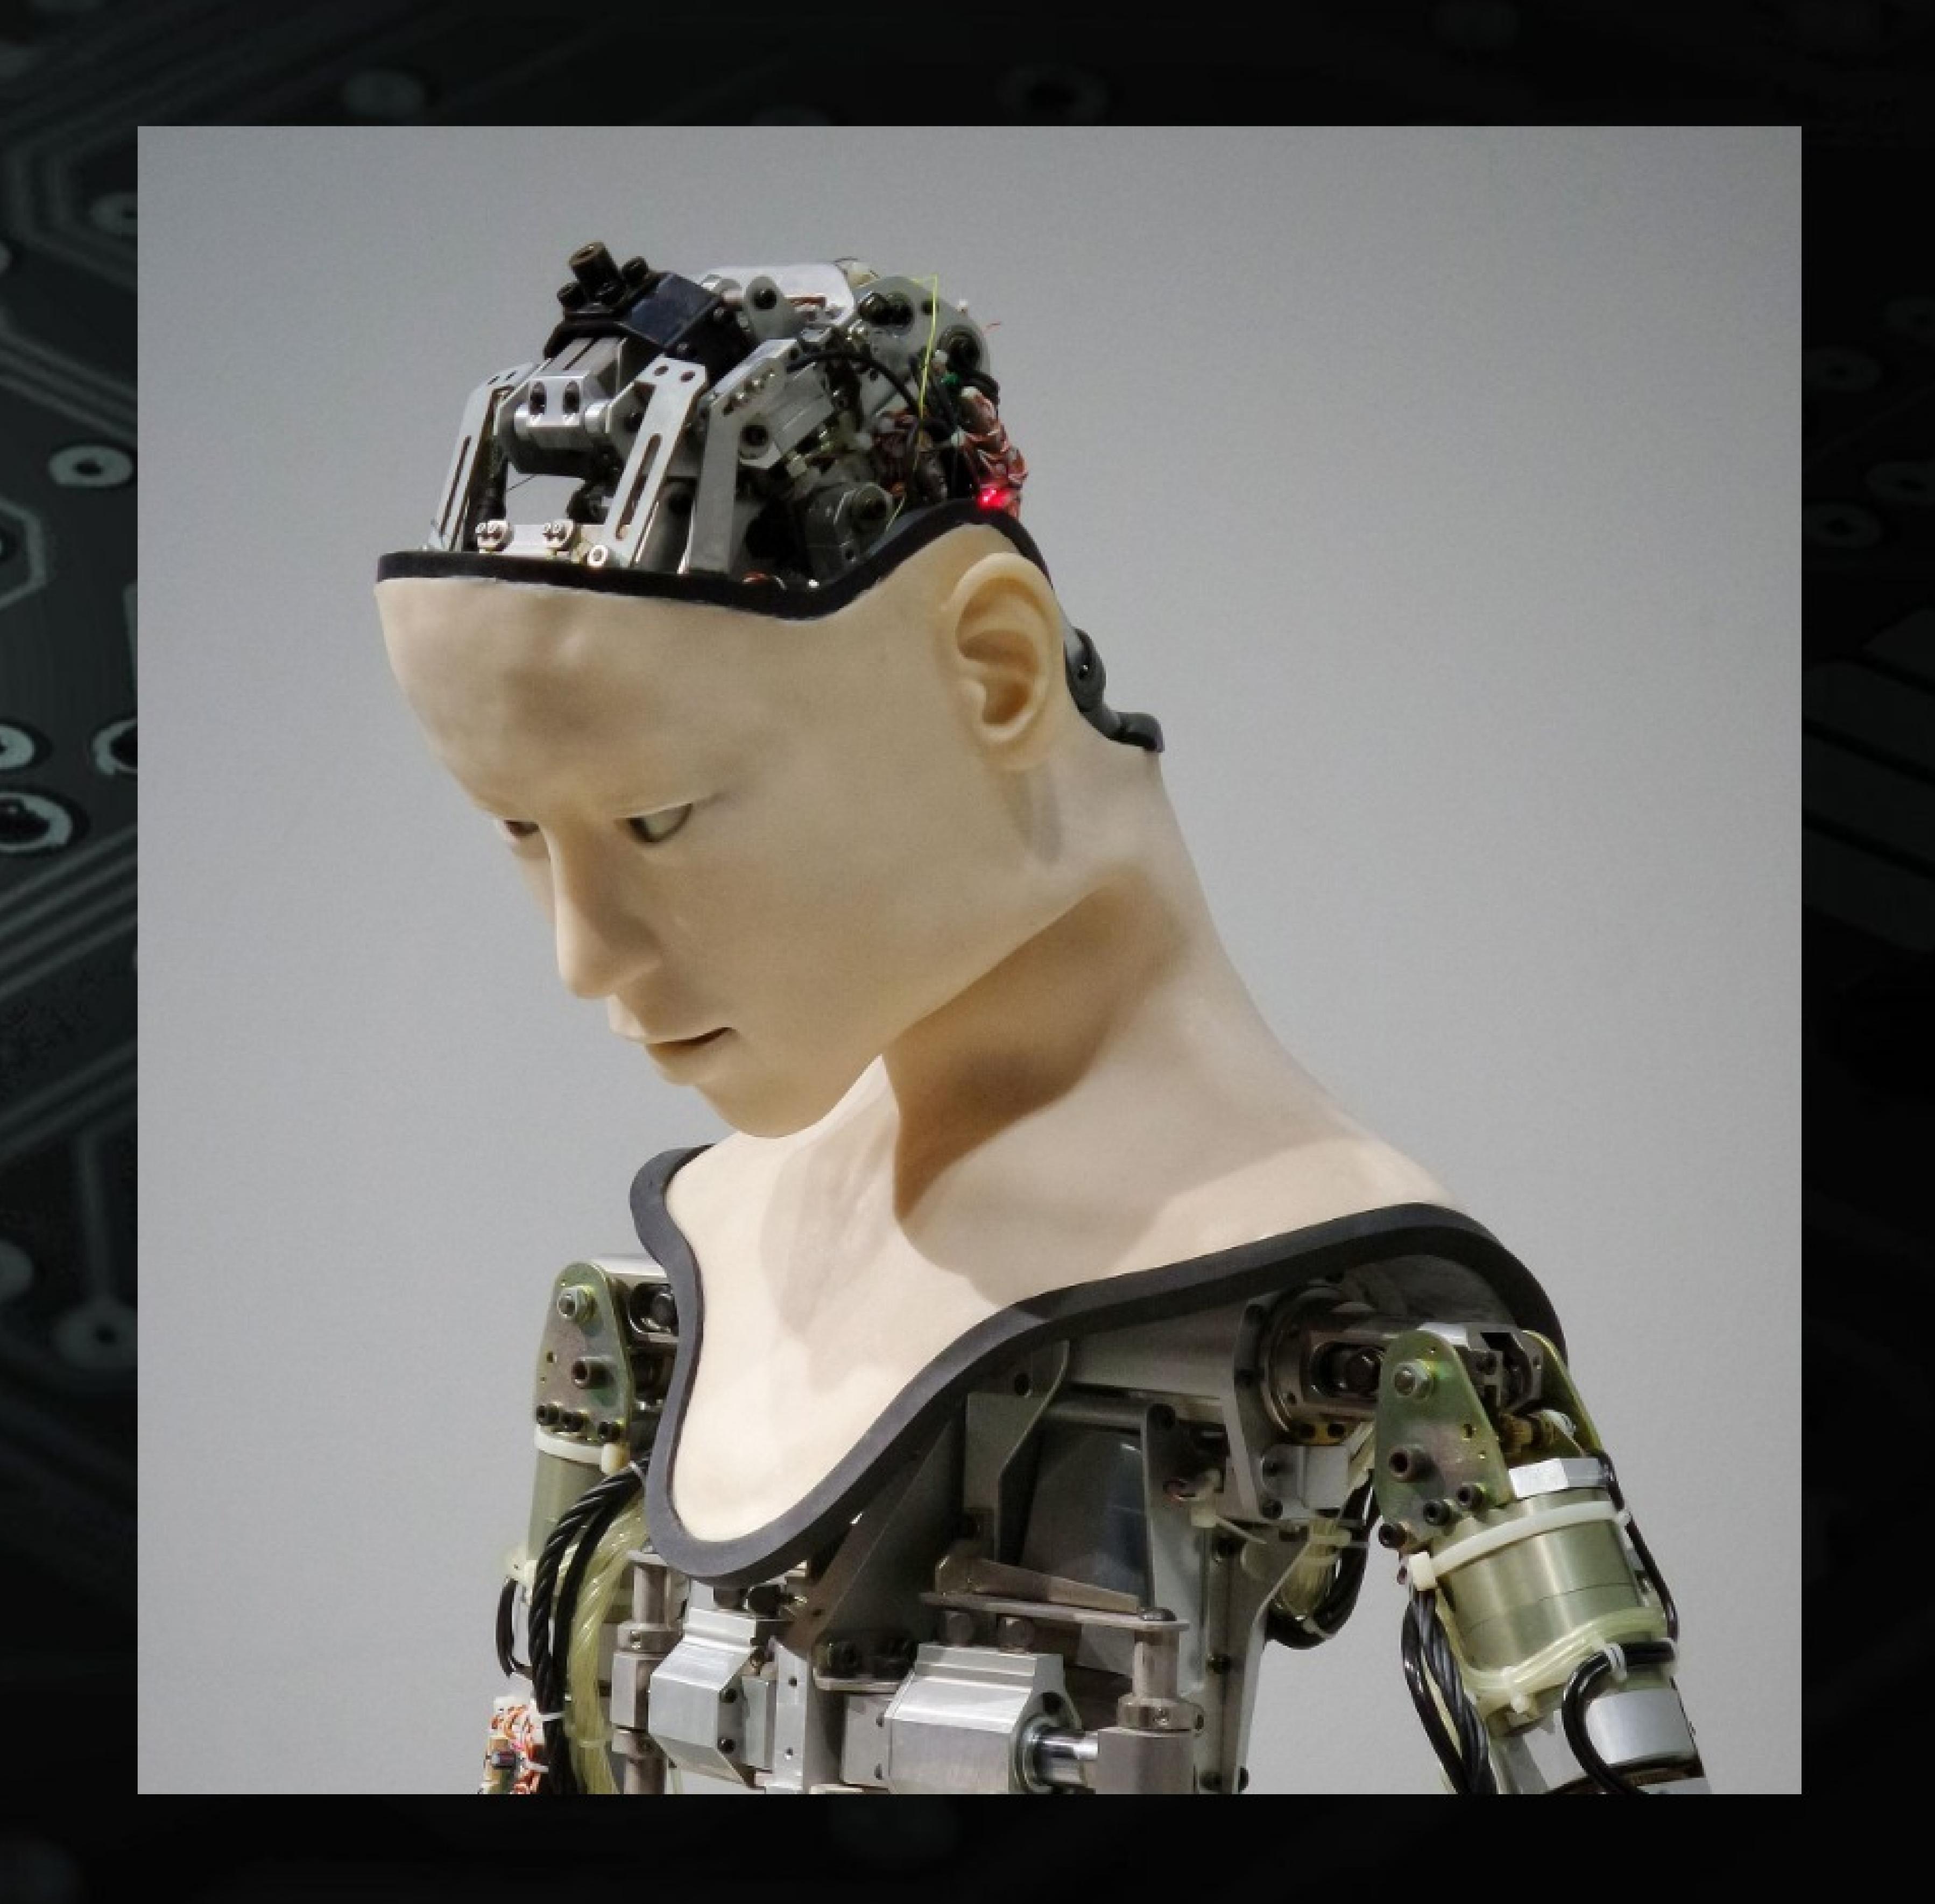

5G is coming!

Our students (and some of us shhh) are glued to their screens...

Be seen or be forgotten!

The Landscape of 5G

5G will differentiate itself by delivering various improvements:

Decrease in latency:

Delivering latency as low as 1 ms.

Spectrum efficiency:

Achieving even more bits per Hz with advanced antenna techniques.

Experienced throughput:

Bringing more uniform, multi-Gbps peak rates.

Connection density:

Enabling more efficient signaling for IoT connectivity.

Traffic capacity:

Driving network hyper-densification with more small cells everywhere.

Network efficiency:

Optimizing network energy consumption with more efficient processing.

Oh but it's been done before...

Find your passion

Find your passion!

It will be weird
It will be feared
It will shake you to the core

Find your passion

You won't know where to start
It will trick you
But you will find it in your heart

English This Way
